EE 107 Intro. to Electrical/Computer Engineering II, Spring 2018
Homework 3

Due right before the class on Tuesday, Feb. 13, 2018

Department of Electrical and Computer Engineering & Technology, MNSU
Dr. Qun (Vincent) Zhang

Note: each problem accounts for 10 points.
Note: You will need to turn in your homework in hard copy form (hand-written, or electronic typing), in the classroom right before the class on Thursday, Feb. 1, 2018.

These problems are from the textbook **Exercises problems** in Chapter 4 (you can find them in the end of the Chapter 4). Please detail your solutions.

Problem 2.   Please write three programs, one using for-loop, one using while-loop, and one using do-while loop. Run programs and attach your run results.

Problem 3. Please write three programs, one using for-loop, one using while-loop, and one using do-while loop. Run programs and attach your run results.

Problem 11. Run programs and attach your run results.
